

ANALYSIS OF RESULTS FOR DSSC/DSTSC 2024

1.

DSSC (Army)**Results.**

<u>Ser No</u>	<u>Details</u>	<u>Total Vacancies for the Army</u>	<u>Secured by Students of USI</u>	<u>USI Percentage</u>
(a)	Competitive	20	14	70%
(b)	Nominated for DSSC	251	191	76%
(c)	Nominated for DSTSC	103	79	77%
(d)	Reserve for DSSC/DSTSC	25	19	76%
(e)	ALMC-17 (Advance Logistics Mgt Course)	30	24	80%
(f)	ALMC-18	30	22	73%
(g)	ISC-14	30	21	70%
	Total	489	370	76%

2.

Analysis

(a) It is seen from the results that out of a total of 1683 offrs who appeared for DSSC/DSTSC, 354 offrs were nominated for DSSC/DSTSC Course based on capacity of DSSC. This works out 21% possible success rate, in case a candidate does not take any of courses at USI. The Comd Pre-staff is attended by all offrs in their own turn, unless someone is unwilling. A qualified percentage of 70% for Competitive, 76% for Nominated category of DSSC offrs indicates that the chances of offrs to qualify for DSSC exam are greatly enhanced by the courses at USI of India.

(b) Out of 20 offrs on the competitive list, 14 offrs have taken OPSC and one or two more pgmes at USI. It indicates the viability of Correspondence Course and contact pgme in addition to OPSC.

(c) There has been an appreciable in percentage of offrs passing in second and third attempt. One of the major reason is that with OPSC model having been adopted, they could attend the Pre-Staff Course, which was not possible in erstwhile CPSC model in 2021-2022.

(d) It is seen that even amongst offrs who did not qualify the exam, in Military History paper handled by the USI, max no of offrs has passed. Amongst Tac A, Adm and Current Affairs, which had more application questions, offrs who practiced attempting Question Papers in Corres Course and Contact Pgme had an edge over others. In Science & Mil Tech USI had covered latest trends, which proved to be quite helpful to offrs passing the exam.

(e) The analysis of results supplements the fact that most of the aims set out for all courses related to DSSC were achieved.
