In pursuit of peace... ground realities on water

For every nation, preparedness for self-defence is of paramount importance. India is no exception.

And playing a behind-the-scene yet significant role as a defence shipyard is GRSE, engaged in the construction of a series of various types of ships/craft for the Indian Navy and Coast Guard.

Yet this is only a tip of the iceberg. Today GRSE manufactures Frigates, Corvettes, Fleet Tankers, Landing Ship Tanks (Large), Survey Vessels, Fast Attack Craft for the Indian Navy; Hovercraft for Coast Guard and BSF, plus a wide range of shipboard equipment.

Where GRSE stands out uniquely is that it is the **only shipbuilder in India that makes ship engines too**. Using state-of-the-art technology.

GRSE's proven versatility is also reflected in the diversified range of products it makes : diesel engines for marine application and power generation, portable steel bridges, submersible/ turbine pumps for agriculture, the list goes on. In short, with peace, progress and prosperity of the nation in view, GRSE has its work cut out on ground realities – a never ending voyage with a dedicated mission.
